

LINPAC concertina folding unit

For maximum utilisation of cube space when in use and 80% space saving when empty, the concertina box brings added efficiencies to the materials handling needs of logistics companies.

- Reinforced double base to reduce deflection
- Can be sealed for tamper evident security/ 4 locking devices. To avoid the entrance on the short panels
- Compatible with European Standard pallets
- Manufactured in tough Polypropylene for longer life
- Lid is intragral with the box, so will not get lost
- Easy to open and fold , ergonomic for handling
- Efficient folding ratio : 20% of the erected height

Crocodile teeth lid accepts seals to ensure tamper evident security. The lid hangs vertical down the side wall, minimising the increase in overall container dimension when lid is open.
